Performance Measures:

Since our entire agency operates under one program, Program 77, the Goals, Objectives, and Performance Measures apply on an agency-wide basis.

Goal 1 - To ensure that only qualified real estate salespersons and brokers serve the public.

To accomplish this goal, we will continue to verify complete applications; review disciplinary and conviction histories; require passage of real estate licensing examination; and require evidence of errors and omissions insurance.

Performance Measure - The ongoing assessment of licensing processes indicates measures are adequate to insure licenses are not issued until all review and verification measures are complete and satisfactory.
