

Agency 074 - POWER REVIEW BOARD

STATUTORY AUTHORITY:

The Nebraska Power Review Board is a statutorily created Board responsible for the regulation of electrical power suppliers operating in the State of Nebraska. The Board provides a quasi-judicial forum for resolution of disputes between power suppliers, and in limited circumstances, between power suppliers and their customers. The Board's primary authority and duties are set out in Nebraska Revised Statutes, Chapter 70, Article 10.

VISION:

The vision of the Nebraska Power Review Board is that the residents of the State of Nebraska receive adequate, reliable electric service at the lowest overall cost possible, and that the Board does its part to create an environment in which Nebraska's power suppliers are enabled to achieve those objectives.

MISSION AND PRINCIPLES:

The Power Review Board's mission is to oversee Nebraska's electric industry to ensure that Nebraska's residents receive adequate, reliable electric service at the lowest overall cost possible using sound business practices, to eliminate conflict and competition between power suppliers, to eliminate duplication of facilities and resources among power suppliers, and to facilitate the settlement of rate disputes and service area disputes between power suppliers. The Board also strives to facilitate resolution of conflicts among power suppliers, and between power suppliers and customers in limited circumstances. When resolution is not possible, the Board will conduct hearings and render its determination of the issues involved.

GOALS:

The Nebraska Power Review Board's goal is to adequately enforce all provisions of Nebraska statutes pertaining to the electric industry in the State of Nebraska, to render fair and accurate rulings on all matters that come before the Board, to work with Nebraska's power suppliers to plan for future electrical generation and transmission needs, and to represent Nebraska's ratepayers before regional and national entities dealing with electrical transmission, reliability and power supply issues.
